Bookplate of Josiah Symon.*

A fine record of the magnificent silver table-centre and the silver shield presented by the people of Australia to the officers and men of the British battleship H.M.S. *Commonwealth*, in recognition of the ship having been named after the new Commonwealth. The table-centre comprises a working model of Cook's *Endeavour* on a base with dolphins and scallops, the ship's rigging constructed with, reportedly, a mile of silver wire; and the shield is an elaborate creation including Australian flora and fauna. Both were made by W.F. Ward, of Sydney, at a cost of 1150 pounds, and the prime mover in raising the funds was Sir Josiah Symon, the original owner of this handsome memento. \$400-600

171 LAWSON, James R., *auctioneers of Sydney. The firm's file copies of their auction catalogues, 1887-1959: some 540 catalogues, and about 70 duplicates, various formats, nearly all letterpress but a handful in the Depression years processed, from a few pages in extent to more than a hundred; some with printed wrappers but most sewn or stapled without them, as issued. Some of the early catalogues with staining or marginal defects, a few lacking wrappers, but generally in good state, within plastic sleeves in 22 Lever Arch folders.*

A highly important archive: from the first decade of the twentieth century Lawsons dominated the auction market in New South Wales for fine art and antiques, and this is by far the fullest extant series of their catalogues. Most are the auctioneer's copies, with the prices obtained entered on the rostrum by James Lawson or his son Max, who succeeded him after his death in 1926; many also have the buyers' names and added lots in manuscript or

typescript, and some supply the names of anonymous vendors. Most of the duplicates are the clerk's copies, often with additional information.

There are three catalogues from the nineteenth century: the notable sale of the contents of four Irish country houses, in 1887; the dispersal in 1895 of the pen drawings commissioned by the *Picturesque Atlas of Australasia*; and the auction of the estate of Henry Parkes in 1896, including 314 lots of books. The Edwardian decade is represented by 39 catalogues, including those for the antiques collection of Barbara Baynton, in 1904, and for the library of A.G. Stephens three years later. Thereafter, until 1959, there are multiple catalogues for each year.

As well as the many catalogues of art sales, and the several of dedicated book sales, those for the numerous onsite dispersals of the contents of grand homes also often include significant art collections and fine libraries.

Bought from Lawsons by John Hawkins in 2000, when the firm changed hands, these catalogues are an invaluable record of provenance and of changing taste in collecting and decorating.

Sold with a copy of the centenary history of Lawsons, *The auctioneers*, by Carl Ruhen, Sydney, 1984. \$20,000-30,000
